## General Information

|                        |       |                |                         |      |            |
|------------------------|-------|----------------|-------------------------|------|------------|
| Dimensions (l x b x h) | mm    | 6058x2438x2591 | Inlet pressure range    | barg | 7,5 - 10,5 |
| Weight                 | kg    | 10500          | Inlet temp range        | °C   | 0 - 45     |
| Noise level @ 1m (Lp)  | dB(A) |                | inlet dewpoint minimum  | °C   | -20/-40    |
| Power                  | kW    | 100            | Outlet pressure range   | barg | 25 - 42    |
| Voltage                | V     | 400            | Outlet temp             | °C   | A + 22°C   |
| Frequency              | Hz    | 50             | Outlet dewpoint maximum | °C   | 3          |
| Operating temp range   | °C    | -25/+40        | Inlet connection        | DIN  | DN80-PN16  |
|                        |       |                | Outlet connection       | DIN  | DN50-PN100 |

## Capacity

@ ref inlet pressure 9 bar

|                 |      |    |      |                     |      |
|-----------------|------|----|------|---------------------|------|
| Outlet pressure | barg | 42 | Flow | m <sup>3</sup> /min | 19,2 |
|                 | barg | 35 |      | m <sup>3</sup> /min | 19,6 |
|                 | barg | 25 |      | m <sup>3</sup> /min | 20,2 |
